

Public Press Release

ICS/PPR/2020/MAR/02

Date: 24/03/2020

This is an emergency public announcement in light of the ongoing COVID-19 pandemic. On behalf of everyone here at icrewsystems, we would like to assure all of our clients that we will continue to deliver the quality product and services that we have been providing.

However, we will be unable to take up new projects till the 01/JULY/2020 unless otherwise notified as our developers & engineers are rendered unable to carry on their assigned tasks. However, we as a company are doing everything in our power to rise above this situation and provide the outstanding services to our clients like always.

Until further advised, we will only be attending to support tickets which pertain to serious issues such as security and operational status, the rest will be gradually attended in the due course of time.

This too shall pass, we shall overcome. Stay safe.

Sooryah Prasath,
COO | icrewsystems
